

Saw Palmetto

320 mg / Standardized Supplement

DESCRIPTION

Saw Palmetto 320 mg is a standardized vegetarian dietary supplement to support proper prostate function.

FUNCTIONS

Saw Palmetto has been shown to positively affect the structure and function of the prostate gland during the normal aging of men. Saw Palmetto (*Serenoa repens*) inhibits the conversion of testosterone to its more active and potentially deleterious form, dihydrotestosterone (DHT), via inhibition of alpha-5-reductase. Saw Palmetto not only inhibits the binding of DHT to cellular receptors, but also has alpha 1-adrenoceptor-inhibitory properties. Alpha1-adrenoceptor antagonism may be responsible for saw palmetto's therapeutic effect in supporting the urinary tract during the normal aging of men. Saw palmetto extracts have also been found to inhibit the biosynthesis of pro-inflammatory prostaglandins and leukotrienes which may exacerbate those symptoms. Saw palmetto works most effectively for BPH when used along with zinc and essential fatty acids.

INDICATIONS

Saw Palmetto 320 mg capsules may be a useful dietary supplement for men who wish to support and maintain the healthy structure and function of their prostate gland.

FORMULA (WW #10335)

1 Capsule Contains:

Saw Palmetto (*Serenoa repens*) Extract..... 320 mg

Yielding: Free fatty acids 80 mg

Other ingredients: Vegetable cellulose, microcrystalline cellulose, vegetarian leucine, and silica.

SUGGESTED USE

Adults take 1 capsule daily with a meal or as directed by a healthcare professional.

SIDE EFFECTS

Warning: If pregnant or nursing, consult your healthcare professional before taking this product.

STORAGE

Store in a cool, dry place, away from direct sunlight. Keep out of reach of children.
